

**Flaura Koplin Winston, M.D., Ph.D., F.A.A.P.**

Dr. Flaura Koplin Winston is a board-certified practicing pediatrician, biomechanical engineer, and clinical researcher. She is an Associate Professor of Pediatrics at the University of Pennsylvania and Senior Scholar at the Leonard Davis Institute. An internationally recognized leader in pediatric trauma research, Dr. Winston is the Founder and Scientific Director of the Center for Injury Research and Prevention at The Children's Hospital of Philadelphia (<http://www.chop.edu/injury>). This unique center includes multiple disciplines advancing the safety of children, youth, and young adults through research followed by translation (Research to Action to Impact).

Dr. Winston's primary research focus is traffic injury. She is the Principal Investigator for research funded by the National Highway Traffic Safety Administration, the National Science Foundation, the Maternal and Child Health Bureau, and State Farm Insurance Companies®, among others. Her work has been published in medical and engineering journals and conference proceedings. Dr. Winston has received awards from many organizations, including the American Philosophical Society, the National Highway Traffic Safety Administration, the American Society of Mechanical Engineers, the American Academy of Pediatrics, Academy Health, the Emergency Medical Services for Children Program, Joint Commissions on the Accreditation of Hospitals (JCAHO), and the National Quality Forum.

Dr. Winston currently serves on the Editorial Board of the BMJ journal, *Injury Prevention*, and the Center for Disease Control and Prevention's National Advisory Committee on Injury Prevention and Control. She has served on committees of the Institute of Medicine, the National Highway Traffic Safety Administration, the American Academy of Pediatrics, the Society of Automotive Engineers, and the International Society of Child and Adolescent Injury Prevention.
